## *Our annual survey of area designers and architects*

Each year, *Home & Design* polls hundreds of area professionals to discover their picks for the leaders in the innovative, ever-evolving home design industry—as well as their votes of confidence in those just making their mark. We also ask architects and designers to vote on their favorite industry resources, in categories ranging from audio/video and appliance showrooms to antiques dealers and art galleries. The following pages cover the complete survey results for 2015.
